

# Sort Rows in Your Online Class Listing Tables

Last Modified on 10/26/2023 1:39 pm EDT

Online Class Listing Tables are highly customizable, allowing you to showcase your class offerings by grouping classes, adding specific class information, hiding columns of information, and more!

It all starts with the [basic Online Class Listing Table](#). There are 12 columns included in the basic table: Register, Class, Description, Days, Times, Gender, Ages, Openings, Class Starts, Class Ends, Session, and Tuition.

This column order is set (hardcoded), and columns cannot be moved to a different order.

To sort the rows of information by column in Online Class Listing Tables, a parameter is added to the [basic JavaScript code and URL \(link\)](#). Well, that certainly sounds very techie ☹️, doesn't it? It sounds worse than it is, we promise!

Let's step through it here and look at a couple of examples with the code and links. If you prefer a quicker study, check out the Speed Learning section in [A Cheat Sheet for Customizing Your Online Class Listing Tables](#).

For a more thorough explanation of how parameters work (with a piece of cake 🍰), check out [Understanding How to Customize Your Online Class Listing Tables](#)
