

Work with Reports - Grid Style

Last Modified on 08/30/2022 1:46 pm EDT

Throughout Jackrabbit, you will see grids, which are sometimes referred to as tables. These grids display the data you have entered into Jackrabbit; they are incredibly robust - allowing you to group, sort, filter for specific information, and more. **Note: the features available in each grid throughout Jackrabbit may vary.**

Sample Grid

The screenshot shows the 'Staff Certifications' grid interface. It includes a breadcrumb trail (1) showing filters: ALL STAFF CERTIFICATIONS, Type: REQUIRED, Names: 3 Items, and a sub-filter for CPR. A 'Manage Certifications' button (7) is in the top right. The grid shows 7 of 16 items, with action icons (8) for grid view, search, refresh, add, and more. An 'Export to Excel' button is also present. The grid has columns: NAME (2), TYPE (5), FIRST NAME, LAST NAME (6), EMAIL, STAFF STATUS, CERT STATUS, and CERTIF. A row menu (3) is shown for the first row. A column menu (6) is open for the LAST NAME column, showing options for sorting, columns, filter, and set column position. The page number (4) is 1, and the items per page (9) is 50.
