Frequently Asked Questions

Q. *Can my customers pay online with Square or Paypal?*

A. If you use Square or Paypal to take payments online, these payments will not automatically be shown in Jackrabbit. Square or PayPal transactions must be processed outside of Jackrabbit, and then each Jackrabbit account must be manually updated.

Q. *How long does it take to set up ePayment processing in Jackrabbit?*

A. The setup process for ePayments with Jackrabbit Pay™ typically takes just a few business days.

Q. *When should I expect to see funds processed as ePayments in Jackrabbit deposited into my account?*

A. Jackrabbit Pay™ offers Next-Day Funding/Payout. Check with your gateway to see if it is available on your ePayments plan.

Q. *What is 3DS2, and does Jackrabbit support it?*

A. 3DS2 is an advanced multi-factor authentication protocol created to aid in fraud prevention and provide additional security. It is only currently available in the United Kingdom for electronic ePayments processed through Jackrabbit. For those organizations affected, credit and debit cards cannot be entered through the Jackrabbit application other than through the Parent Portal; add and edit card fields are disabled.
