

View Future Enrollments

Last Modified on 05/27/2025 10:02 pm EDT

If a student is enrolled with a future start date, you can view the details in the Family record on the Summary tab, in the Student record on the Classes tab, or on the Activity Calendar.

Family Summary Tab

To access the Summary tab for a family, navigate to the family's record in Jackrabbit. If a student has a future enrollment, it will be displayed in the *F. Enroll* column.

Student Classes Tab

To access the Classes tab for a student, go to the student's record and select the **Classes** tab. If a student has been enrolled with a future start date, it will be displayed in the *Future Enrollment* section.

Activity Calendar

To access the **Activity Calendar**, use the **Calendar** link at the top right of all pages in Jackrabbit. When using a Comfortable card density option, the number of future enrollments in a class is indicated (**FE**) after the class name.

Hover over the class name, and a small window with class details appears.

Click the number link next to *Future Enrolls* to view details of the future enrollments.
