

Report/Track Future Enrollments

Last Modified on 05/27/2024 2:57 pm EDT

The best way to track future enrollments in Jackrabbit is with the [All Students](#) page from the *Students* menu.

Create a listing of all students with enrollments in the future using the *Enrollment Status* filter **Future enrolled**.

1. Go to **Students** (menu) > **All Students**.
 2. Click the **Filter** icon to open the *Filter Drawer*.
 3. Enter the keyword **future** in the search field to navigate to the *Enrollment Status* filter.
 4. Click into the filter field to drop down the options; select **Future enrolled**.
 5. Click **Apply**.
 6. The *Filter Drawer* will close, and your display will now show only those students with enrollments in the future.
