

Schedule a Makeup from the Student Record

Last Modified on 06/03/2020 7:46 pm EDT

When you [track absences](#) in Jackrabbit, and you allow your students to make up their missed classes, there are a few different [ways to schedule a makeup](#)

One of these workflows is to schedule a makeup class from the *Student* record.

To schedule a makeup for a student, the student must have been **marked absent**, and the absence must have been marked as "Eligible for Makeup".

Schedule a Makeup from the Student Record

1. Go to the **Absences** tab in the Student record.
2. Click the **Schedule Makeup** link for the appropriate absence to open the **Weekly Calendar**. For organizations with different locations, click *Change Criteria* at the top of the calendar to customize the calendar view for all locations (leave blank) or select a different location.

If the *Makeup Exp. Date* has not passed, i.e., it is earlier than the current date, it can be edited to accommodate for longer outages. If needed you can [extend the expiration date for multiple absences](#) that occurred during a specific time frame.
