

Create Skills/Levels

Last Modified on 05/30/2023 11:01 am EDT

Skills/Levels *must be created* before they can be added to a class; this is done from the **Classes (menu) > Skills > Manage Skills/Levels**.

There are two settings that control how dates are assigned to skills; they are found on the main Skills/Levels page:

- **Auto Set Student Start Date**
 - Set this to yes to have the start date for each skill automatically assigned to the students in the class (the date the skill/level is added to the class).
- **Update Skill/Level date attained when all Subskills are attained**
 - Set this to yes to automatically assign a date attained for a skill/level when all subskills are attained.
 - When this is set to no staff must manually enter a skill/level's date attained when all subskills are attained.

The screenshot shows the 'Skills/Levels' management page. At the top, there are buttons for 'RETURN', 'SAVE CHANGES', '+ ADD SKILL/LEVEL', and 'IMPORT SKILLS/LEVELS'. A callout points to the 'IMPORT SKILLS/LEVELS' button, stating 'Import your skills & subskills.' Below this is the 'Skill/Levels Settings' section with two radio button options: 'Auto Set Student Start Date' (Yes/No) and 'Update Skill/Level date attained when all Subskills are attained' (Yes/No). A callout explains that these settings apply to all skills/subskills. The main table lists skills with columns for Skill Category, Skill/Level, Skill/Level Code, Edit Subskills, Description, Video Link, # Days Req., # Classes Req., Test Fee, and Order. Callouts highlight the 'Edit Subskills' link, the 'Video Link' column, and the 'Order' column. A 'Copy a skill.' callout points to the copy icon in the table header.

Create a New Skill and Subskill

Follow these steps to add or create a new skill/subskill:

1. Go to the **Classes (menu) > Skills > Manage Skills/Levels**.
2. Click **+Add Skill/Level**.
 - In the *Add Skill/Level* window, choose a **Skill Category** from the drop-down choices, name the **Skill/Level**, and optionally add a **Skill/Level Code**.
3. Click **Save**.
 - If applicable, add **Subskills** to each *Skill/Level* by clicking the link in the *Edit Subskills* column.
4. Add a **Description** of the Skill/Level.
5. Optionally add a **Video Link** to demonstrate the skill; the video can be viewed by parents in their portals. Accepted file types: YouTube, .mp4, .ogv, .webm, .3gp.
6. Add **# Days Required**, **# Classes Required**, and **Test Fee** if applicable.

7. Order the list by adding a **number** in the *Order* column for each skill (#1 will be first on the list, etc.).
8. Click **Save Changes**.

Copy a Skill

Quickly create a new skill using an existing one as a starting point with the copy icon located to the left of the skill.

Import Skills/Levels

You can import your skill/subskill data by using the **Import Skills/Levels** button. Follow the instructions to download Jackrabbit's Importer Spreadsheet. Once you fill that sheet in as per the instructions, you can either import it or send it to our Imports team at imports@jackrabbittech.com and they can do the import for you.

See more information on importing Skills/Levels in our [Data Requirements for Import](#) article.
