

# Student Detail Report [Share](#)

Last Modified on 05/14/2026 1:19 pm EDT

The **Student Detail** report provides you with a list of students based on filters ( [Search Criteria](#)) you select.

Get to this report from the **Students** menu > **Student Reports** > **Student Detail Report**.

- ★ Customize a student report with filters including age, birth month, gender, and classes they are enrolled in.
- ★ Send a message (email, push notification, text) directly from the report results.
- ★ Generate a monthly birthday report and email those students directly from the report results.

Save a frequently used report for quick and easy access! Click the **Heart** icon  next to a report name to change the heart to red  and add the report to your Reports menu > [My Reports](#).

## Search Criteria

Filter your list of students using any or all of the available Search Criteria to compile a report of students who meet ALL of the criteria chosen. In this example, we have selected May.

Gender will be shown as a selection in the Search Criteria by default, however, if you prefer to hide Gender change it in the [Organization Default Settings - Student Settings](#).

Run Student Detail report using search criteria below.

Location:

Active:  (Yes=Currently Enrolled Students Only)

Age From:  Age Through:  Gender:

Birth Month:

Enrolled in Classes (Category1):

City:  State/Prov:  Zip/Post Code:

Gender will display by default unless **Hide Gender** is enabled in Organization Default Settings.

## Report Results

The report results can be further customized to show or hide columns of information, sort and filter columns, or modify column width. You can also send an email or print directly from the report results.

Save time and effort each time you open a grid page to view your data! After you have edited column settings and set the grid column widths, save the filtered data as a [Favorite](#). A saved Favorite can be set as a default view and shared with other Jackrabbit Users in your organization.

Use the icons in the upper right to work with the information in the grid.

Print  
Export to Excel

- Click the **Adjust columns** icon  > **Squeeze grid** to view the entire grid on the page.
- Leave the first column clear and click on the **Send Message** icon  to send an email to all students in the grid. You can also use the first column to select a single student or group of students to send a message to. If you are enabled for [texting](#), you'll have the option to send a text, and if you have an app with [Jackrabbit Plus](#), you can send push notifications.
- Click the **Refresh Grid** icon  to update results in the grid if you make updates.
- Select the **More** icon  to print or export the data to Excel.

Refer to [Work with Grids in Jackrabbit](#) for more details on how easy and flexible these grids are to work with. You can filter, sort, hide, lock, and adjust your report results.
