

# Copy Multiple Classes at Once

Last Modified on 12/05/2023 10:25 am EST

**Copy Class Session** (from the *Classes* menu > *Copy Classes*) will assist you in setting up a new **session** by copying multiple classes from one session into another. Copy Class Session is the second step in **transitioning between sessions**. Use it after you have **created a drop-down value** for the new session.

If any classes you want to copy have been archived, you must **restore** them before they are included in the Copy Class Session function. In addition, all Policy Groups are removed when classes are archived, so be sure to add Policy Groups after the new classes have been created.
