

Delete a Class

Last Modified on 12/02/2021 5:28 pm EST

Deleting a class completely deletes it from your organization's database, and it cannot be retrieved. Use caution when deleting classes. Jackrabbit recommends that you [archive classes](#) instead.

Delete a Class

1. Make sure that the class has no enrolled students. If students are enrolled in the class to be deleted, they must be dropped first (use the [Drop link](#) or [Mass Drop](#)).
2. Click the red **Delete** button in the *Class* to delete the class permanently.
3. In the pop-up box, you'll be offered the option to archive the Class. Unless the class was created in error, you should click the **Archive Class** button and follow the archiving steps.
4. If the class was created in error and needs to be permanently deleted, click the **Delete Class** button.

Class: Tumbling L1 - Tues 6pm
