

Set Up / Edit Fee Tax Details

Last Modified on 12/11/2024 10:09 am EST

One tax rate can be set to automatically calculate tax on either or both service and non-service related fees.

Example: *Canadian clients charge GST on both services and fees.*

Typically, a fee tax rate is added during [Organization Set Up](#). To check or update a fee tax rate for your Jackrabbit system:

1. Go to the **Gear** (icon) > **Settings** > **General** > **Organization Defaults** (left menu) > **Tax Settings** (section).
2. Set *Make Sale/Post Fees: Add tax in the "Post Fees" section* to **Yes** or **No**. (If this is yes, the "Post Fees" section of Make Sale / Post Fees will default to having tax automatically calculated.)
3. If you charge tax on services, set *Tax Tuition and enrollment fees (excluding Web Registration)* to **Yes**. (Setting this to Yes will charge tax on *Tuition Fees* when using *Post Tuition Fees*, *Web Registration*, and the *Parent Portal*.)
4. Enter a **Tax Rate**. (Example 7.5 for 7.5%)
5. In the *Tax Label* field, give the tax a **name**. (Examples: Sales, Tax, GST, VAT, etc.)
6. Scroll up and click **Save Changes**.

Fee Taxes are different than Item Taxes. Only one tax rate may be set for fees. Items (sold via the Store) may have different tax rates. See the [Store Setup](#) topic for details on creating Item Tax Rates.
