

Multi-Location Revenue Reconciliation Reports

Last Modified on 11/19/2021 12:50 pm EST

Jackrabbit's Revenue Reconciliation reports are an indispensable tool when you have **multiple Business Locations** in your database!

You can find these reports under the *Transactions* menu. Go to **Transactions (menu) > Transaction Reports > Revenue Reconciliation Reports**.

- ★ Reconcile revenue between where payments were received and where revenue was earned.
- ★ Analyze revenue by Family or by Business Location using four report options: **Reconciliation Summary, Location Summary, Revenue by Location, and Revenue by Family**.

*When you have a single Business Location in your database, the only report option available is the **Revenue by Family**; the other three options relate to multiple Location revenue reconciliations.*

Using the following example, we'll step through each of the four report options:

- An organization has two Locations, Location 1 and Location 2. The physical locations are very close to each other, and many families have students taking classes at both.
 - Each Location is managed by a different business partner, and revenue is routed to separate bank accounts based on the Location of the family making the payment.
 - The Family Location for the Hallman Family and the Snyder Family is **Location 1**.
 - The Snyder Family has a student taking one class at Location 1 (\$120); they made a payment of **\$120** for the February tuition, and it was deposited into the **Location 1** bank account.
 - The Hallman Family has a student taking one class at Location 2 (\$60); they made a payment of **\$60** for the February tuition, and it was deposited into the **Location 1** bank account.
 - The Paid Fees Detail report for all Locations reflects both payments and total revenue of **\$180**.
-

Paid Fees Detail

1/31/2023 - 1/31/2023

Cat1	Pmt Date	Family/Acct	Fee Date	Trans Type	Note	Pmt Method	Fee Amt	Tax	Pmt Amt
Music Lessons
