

Multi-Class Discounts

Last Modified on 01/14/2022 4:05 pm EST

When posting tuition fees for classes with the **Billing Method - By Class Fee**, a discount can be automatically calculated and applied to tuition fees based on the number of classes taken.

Multi-class discounts can be calculated either by student or by family:

Count classes by student	Jackrabbit counts each student's classes separately and calculates the discounts.
Count classes by family	Jackrabbit adds the tuition for the classes taken by all students in the family and calculates the discount.

Define and Add Discount Rules

The first step in applying multi-class discounts is to define them using Tuition Discount Rules. The Discount Rules are then added to each *Class* record, on the *Summary* tab.

Step 1
Define your discounts by adding Tuition Discount Rules
