

Multi-Student Discounts

Last Modified on 05/11/2023 1:25 pm EDT

Multiple student discounts allow you to offer a reduction in tuition fees for families with multiple students taking classes with you. They can be used with classes using either **Tuition Billing Method** of *By Class Fee* or *By Total Hours*.

Multiple Student Discounts - Classes Billed By Class Fee

For classes that have a Billing Method of *By Class Fee*, a multi-student discount is defined using a **Tuition Discount Rule**.

The Discount Rule can be created as only a multi-student discount, or it can be added in combination with a multi-class discount using a combination rule type.

The first step in applying multi-student discounts to classes billed *By Class Fee* is to define them using Tuition Discount Rules. The Discount Rules are then added to each *Class* record, on the *Summary* tab.

Step 1
Define your discounts by adding Tuition Discount Rules
