Multi-Student Discounts

Multiple student discounts allow you to offer a reduction in tuition fees for families with multiple students taking classes with you. They can be used with classes using either **Tuition Billing Method** of *By Class Fee* or *By Total Hours*.

Multiple Student Discounts - Classes Billed By Class Fee

For classes that have a Billing Method of *By Class Fee*, a multi-student discount is defined using a **Tuition Discount Rule**.

The Discount Rule can be created as only a multi-student discount, or it can be added in combination with a multi-class discount using a combination rule type.

The first step in applying multi-student discounts to classes billed By Class Fee is to define them using Tuition Discount Rules. The Discount Rules are then added to each *Class* record, on the *Summary* tab.

Step 1 **Define your discounts by adding Tuition Discount Rules**	
Step 2 **Assign Tuition Discount Rules to Classes**	

Multiple Student Discounts - Classes Billed By Total Hours

Post Tuition Fees

If you are using the Billing Method of *By Total Hour*s, **and** you set *Post total hours per* to Student in **Post Tuition Fees**, you can include multi-student discounts. This is found under **Transactions** (menu) > **Post Tuition Fees.**

Tuition Settings

The multi-student discount is defined in your *UPDATE "TOTAL HOURS" DISCOUNT SETTINGS* (**Total Hours Discount Settings**) from the *Gear (icon) > Settings > Tuition & Discounting*.
