

# Multi-Class Discounts

Last Modified on 09/22/2021 7:07 pm EDT

When posting tuition fees for classes with the **Billing Method - By Class Fee**, a discount can be automatically calculated and applied to tuition fees based on the number of classes taken.

Multi-class discounts can be calculated either by student or by family:

<b>Count classes by student</b>	Jackrabbit counts each student's classes separately and calculates the discounts.
<b>Count classes by family</b>	Jackrabbit adds the tuition for the classes taken by all students in the family and calculates the discount.

## Define and Add Discount Rules

The first step in applying multi-class discounts is to define them using Tuition Discount Rules. The Discount Rules are then added to each *Class* record, on the *Summary* tab.

**Step 1**  
Define your discounts by adding Tuition Discount Rules

**Discount Rules for Classes Billed by Tuition Fee**
