Sell and Track Punch Cards in Jackrabbit

Punch cards are a pass that is 'punched' each time a student takes a class. With the fee for all visits paid up-front, the number of prepaid classes depletes with each visit. This is a great way to offer discounted rates to students who don't regularly attend classes with you. Jackrabbit can help you sell and track punch cards!

Offer convenience to your customers and streamline processes with virtual e-Punch Cards through the Jackrabbit Plus mobile app. **Click here to learn more**!

Use the following process to record the sale and usage of punch cards within Jackrabbit.
