User Permissions for All Families (Families menu)

There are many User Permissions related to **All Families** from the *Families* menu and the various options on that page.

User Permissions play a crucial role in protecting your data by controlling who can access, modify, or perform specific actions in your system. Review **Protect Your Account - User Permission Guidelines** for more information.

To adjust a User's permissions, go to the **Gear** icon > **Settings** > **Users & Permissions** > **User IDs** (click on a UserID) > **User Permissions** (left menu) to set the permissions. ***Note:*** *If a User is logged in when changes are made to their permissions, they'll have to log out and back in for the changes to take effect.*
