

Post Tuition Fees - Multi-Student Discount Settings

If you are posting to classes with the **Billing Method** of **By Total Hours** and you have set *Post total hours per Student* you can include multi-student discounts.

The discounts default to those defined in the *Total Hours Discount Settings* under the Gear icon > *Settings > Tuition & Discounting*. They can, however, be edited in this workflow and applied to this posting without affecting your **Total Hours Discount Settings**
