

Contextual Help Template

Remember to:

- add ch to the beginning of the permalink
 - add an Internal Title starting with "ch - xxx"
 - add Internal Note with breadcrumbs, e.g. Gear icon > Settings > General > Organization Defaults > General section
 - add Internal Note with permalink of Main HC article
 - if content is exact dupe from a specific main HC article, designate HC article as TOPIC and embed into ch article
 - enable all restrictions
 - tag the article "Contextual Help" and add the internal tag for migrated or new ch content
 - manually relate the article where the content is covered in the main HC - this should be top related article
 - manually relate any other helpful articles or any articles that are linked to in the body of the ch article
 - add Internal Note to main HC article with permalink of ch article
 - delete this text ;)
-
