

Link Directly to a Specific Class

Last Modified on 02/01/2023 2:37 pm EST

There may be instances when you want to promote or invite a specific group of students to enroll in a class (on a specific day/time). Some of these instances may include:

- Enroll in a team class
- Priority enrollment
- Class for the next skill level

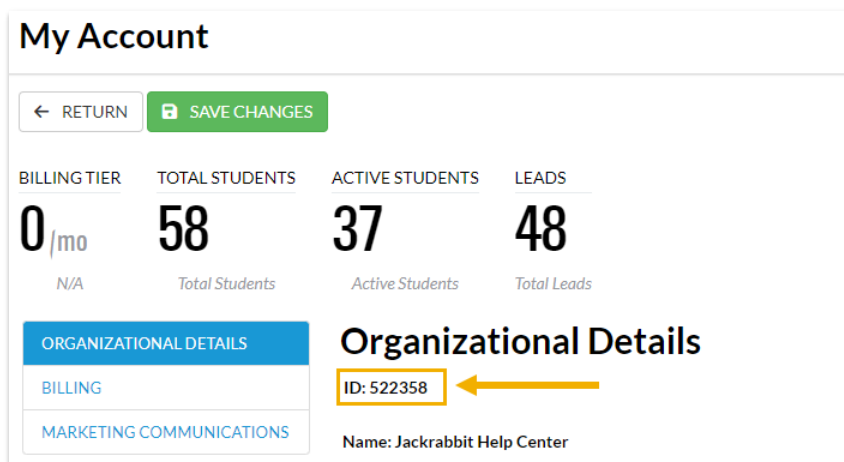

You can create a direct link to a class and put this link either on your webpage or send it to a group of families in an email blast or use it on social media.

Create a Direct Class Link

It just takes a few steps to create a direct class link.

Use this URL to start: <https://app.jackrabbitclass.com/regv2.asp?id=XXXXXX&preLoadClassID=XXXXXXXX>

- Replace the **X's** after `asp?id=` with your Organization ID. This can be found under the *Gear icon > Account > My Account > Organizational Details*.

The screenshot shows the 'My Account' page with a navigation bar containing 'RETURN' and 'SAVE CHANGES' buttons. Below the navigation bar, there are four columns of statistics: BILLING TIER (0/mo), TOTAL STUDENTS (58), ACTIVE STUDENTS (37), and LEADS (48). Underneath these statistics are labels: 'N/A' for Billing Tier, 'Total Students' for Total Students, 'Active Students' for Active Students, and 'Total Leads' for Leads. A sidebar on the left contains three tabs: 'ORGANIZATIONAL DETAILS' (selected), 'BILLING', and 'MARKETING COMMUNICATIONS'. The 'Organizational Details' section shows 'ID: 522358' with a yellow arrow pointing to it, and 'Name: Jackrabbit Help Center' below it.

- Replace the **X's** after `ClassID=` with the Class ID. The Class ID is located in the lower left-hand of any tab in a *Class* record.

Class: Cheer Ready - Fri 6pm

Id: 14865819

- For the example above, the direct class link = <https://app.jackrabbitclass.com/regv2.asp?id=522358&preLoadClassID=14865819>

When you use a direct class link, it will open your Online Registration form. Class openings, age, and gender restrictions for the class still apply with a direct class link. *Note: Double check when adding the Organization ID and the Class ID; the number must be an exact match for the direct link to work.*

Remember to remove the direct class link manually from your website, social media, and all emails when the class is over to avoid accidental enrollments in a class that has ended.
