

# User Permissions for Class Waitlists

Last Modified on 02/15/2024 12:43 am EST

There are several User Permissions related to **Waitlists**. These permissions allow the User to perform tasks such as adding students to a waitlist or changing a student's priority order.

User Permissions play a crucial role in protecting your data by controlling who can access, modify, or perform specific actions in your system. Review [Protect Your Account - User Permission Guidelines](#) for more information.

To adjust a User's permissions, go to the **Gear** icon > **Settings** > **Users & Permissions** > **User IDs** (click on a User ID) > **User Permissions** (left menu). **Note:** *Users who are logged in when their permissions are changed will have to log out and back in for the changes to take effect.*

## Permissions Related to Waitlists
