

# The Activity Calendar - Classes & Events

Last Modified on 09/25/2024 3:14 pm EDT

Jackrabbit's **Activity Calendar** is designed to streamline your scheduling process, providing a centralized solution for managing activities with greater efficiency and clarity across your organization.

Manage your classes and events in one place, helping you organize your operations and prevent scheduling conflicts.

Avoid double-booking with a clear view of activities and real-time staff availability, saving time and reducing errors.

Customize your calendar with filters and flexible views, including side-by-side or stacked, and options to display by week, day, room, or in an agenda format.

Permissions determine what data your Users can access and what actions they can perform. Before proceeding, review [User Permissions for the Activity Calendar](#).

---

To access the Activity Calendar use the **Calendar** link at the top right of all pages in Jackrabbit.

**Expand/Collapse  
All**

## Activity Calendar Settings

The ability to edit the Activity Calendar settings is controlled by the *Activity Calendar Settings* [User Permission](#) (Tools category). This permission is automatically granted to Users with the roles of Owner and/or Manager/Director and can be granted to other Users by your system administrator.

All settings are organization-wide and apply to all Users.

Access the Activity Calendar settings from the calendar header.

- Expanded header - select the **Gear** icon .
- Collapsed header - select the **More Options** icon and choose the **Calendar Settings** option.

The settings are organized into two sections: Calendar Preferences and Display Options.

#### Calendar Preferences

Use the calendar preference settings to customize the time range (start time and end time), displayed days of the week and the starting day for Week View, and the default time increment for the calendar (15, 30, or 60 minutes).

#### Display Options

Select your **Default Calendar View** (see [Calendar View Options](#) below) and use the **Default Card Density** settings to control the amount of information included in class activity cards and how they are laid out on the calendar.

You can adjust the calendar view and density directly from the Activity Calendar using the options in the calendar header, but they will revert to the selections made in your calendar settings.

- **Switch Calendar View**
  - Expanded header - use the drop-down to select the calendar view.
  - Collapsed header - select the Switch Calendar View icon .
- **Switch Card Density**
  - Each card density option in the calendar header is represented by a different icon. Use the icons to switch between card densities.

## Get to Know Your Activity Calendar

The Activity Calendar is divided into three sections: the calendar header, the left sidebar, and the calendar body.

Hide the left sidebar and collapse the header to maximize your main workspace - the calendar body.

## Calendar Header

When first loaded, the Activity Calendar displays with the calendar header expanded.

Use the image and legend below to get to know your way around the header.

- 1 The Hide/Show Sidebar icon controls the left sidebar, which includes the mini calendar and filter options. When the sidebar is collapsed, a badge displays the number of currently selected filters.
- 2 Refresh the calendar body.
- 3 The Expand/Collapse Header icon controls the calendar header.
- 4 Access the Classic Calendar.
- 5 Quick navigation options (not available when the header is collapsed).
- 6 Select a date for the calendar display.
- 7 Access the Calendar Settings.
- 8 Print the Activity Calendar.
- 9 *Coming Soon - Add an activity to the calendar!*
- 10 The currently selected filters are displayed when the header is expanded.
- 11 Use the Switch Card Density icon to change how your activity cards display in the calendar body. Choose from side-by-side or stacked, and comfortable or compact options allow you to control the amount of information shown in the activity cards.
- 12 Select your calendar view from these options: Week , Day , Agenda , or Room .

## Left Sidebar

When first loaded, the Activity Calendar displays with the left sidebar open to show the mini calendar and filter options. It can be hidden entirely using the Hide/Show Sidebar icon in the calendar header.

Use the mini calendar to navigate to another date and adjust the calendar display.

The Activity Calendar offers many filters to tailor your view. Filters are divided into three categories: Classes, Events (*Coming Soon!*), and Appts (*Coming Soon!*).

- Use the arrow next to each filter to open and select from the list of available filter choices.
- The filter options section shows the number of activities that match the selected filters and are currently visible in the calendar body.
- Each filter category will display a badge with the number of filters that have been applied.
- Filters that are in use will display a badge with the number of filter choices selected. The filters will also be displayed in the expanded calendar header, with an option to clear them individually.

## Calendar Body

The calendar body is your main workspace. To maximize this space, hide the left sidebar and collapse the calendar header.

- The activity cards are color coded using the Category 1 color assignments you select in your [General Settings](#).
- Activities without a specified start time, end time, or both are treated as all-day activities and will appear at the top of the calendar body.
- The calendar active days, start day, and time increments are controlled by your [Activity Calendar Settings](#).
- Hover over an activity card for a snapshot that displays a summary of the information for the activity, including openings, current size, max size, number of waitlisted students, future enrolls and drops, and more.
- Click on an activity card to view more detailed information with links to Student, Instructor, and Class/Event records.
- Double-click on an activity to open the Class/Event record in a new browser tab.

## Calendar View Options (Week, Day, Agenda, and Room)

The Activity Calendar offers several different views: Week, Day, Agenda, and Room.

### Week

Use the Week View of the Activity Calendar to display a full week of activities.

To view the calendar in Week View, select **Week** from the drop-down menu in the expanded calendar header or use the **Switch Calendar View** icon in the collapsed calendar header. Note: The Switch Calendar View icon changes to reflect the current view and may be one of (Day), (Agenda), or (Room).

To set Week View as the default for your Activity Calendar, click the **Gear** icon in the expanded calendar header or select the **More Options** icon and choose the **Calendar Settings** option in the collapsed header. In the Display Options, set your **Default Calendar View** to Week.

### Day

Use the **Day View** of the Activity Calendar to focus on the activities for a specific date. It will default to the current date.

To view the calendar in Day View, select **Day** from the drop-down menu in the expanded calendar header or use the **Switch Calendar View** icon in the collapsed calendar header. Note: The Switch Calendar View icon changes to reflect the current view and may be one of (Week), (Agenda), or (Room).

To set Day View as the default for your Activity Calendar, click the **Gear** icon in the expanded calendar header or select the **More Options** icon and choose the **Calendar Settings** option in the collapsed header. In the Display Options, set your **Default Calendar View** to Day.

- A horizontal red line across the calendar indicates the current time.
- Day View cannot currently be printed.

#### Agenda

For a streamlined, organized overview, use the **Agenda View** of the Activity Calendar to list all classes and events for a specific day chronologically. It will default to the current date.

To view the calendar in Agenda View, select **Agenda** from the drop-down menu in the expanded calendar header or use the **Switch Calendar View** icon in the collapsed calendar header. Note: The Switch Calendar View icon changes to reflect the current view and may be one of (Week), (Day), or (Room).

To set Agenda View as the default for your Activity Calendar, click the **Gear** icon in the expanded calendar header or select the **More Options** icon and choose the **Calendar Settings** option in the collapsed header. In the Display Options, set your **Default Calendar View** to Agenda.

- Agenda View displays the current activity size and its max size for each activity.
- Hover over any activity for a snapshot of its details.
- Currently, Agenda View cannot be printed.

#### Room

Use the **Room View** of the Activity Calendar to see a single day's activity schedule by room (it defaults

to the current date).

To view the calendar in Room View, select **Room** from the drop-down menu in the expanded calendar header or use the **Switch Calendar View** icon in the collapsed calendar header. Note: The Switch Calendar View icon changes to reflect the current view and may be one of (Week), (Day), or (Agenda).

To set Room View as the default for your Activity Calendar, click the **Gear** icon in the expanded calendar header or select the **More Options** icon and choose the **Calendar Settings** option in the collapsed header. In the Display Options, set your **Default Calendar View** to Room.

- Room View defaults to include rooms without any activity. Toggle off the *Include Rooms with No Activity* filter to hide those rooms.
  - Rooms without activity will display an orange alert badge .
  - A horizontal red line across the calendar indicates the current time.
  - Any activity that has not been assigned a room will be displayed in a No Room Assigned column. Click the activity card to quickly navigate to the activity record, where you can assign a room.
  - Room View cannot currently be printed.
-
