Issue/Question

How do I enable a feature in Jackrabbit Labs?

Resolution

Jackrabbit Labs gives you early access to new features before they're released to everyone. You can turn features on to try them out, explore what's new, and turn them off at any time. To use a Jackrabbit Labs feature, you must first enable it by going to the **Gear** icon > **Settings** > **Jackrabbit Labs** and toggling on the feature you want to use.
